VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, a pre-sale veterinary examination of **Lot 538, LONHRO ex IMANANABAA bay/brown yearling colt**, brands as described in the 2017 Inglis Classic Yearling Sales Catalogue, was carried out at the Newmarket Sales Complex, Randwick, on Thursday, 9th February 2017, prior to the commencement of the Inglis Classic sale.

Clinical Examination:

The colt presented as expected by the sire, a typical 3yo type of individual. He was athletic, nicely balanced and well conformed. An attractive individual with, depth of girth and length of rein. He was presented in good condition. He was a quality yearling standing over good ground. He is still immature and will develop further. All clinical parameters were found to be within normal limits. He was examined in hand, and was found to be free moving. Stethoscope examination of heartbeat was normal. There was no clinical evidence of wear or injury to her extremities.

Radiographic Examination:

Pre-sale there was a full set of radiographs available for inspection in the repository at the Inglis Complex. Upon examination, they were of low risk as there were no radiographic findings of any significance noted.

Endoscopic Examination:

Post sale the upper respiratory tract was examined endoscopically and the larynx and pharynx were found to be normal in appearance and function.

Conclusion:

In my opinion, at the time of this examination, **Lot 538, LONHRO ex IMANANABAA bay/brown yearling colt**, is in so far as can be determined from the extensive examination conducted, suitable for racing and public syndication and as such, is therefore suitable for all risk mortality insurance cover. I confirm that I advised Dynamic Syndications that in my opinion this lot was suitable for purchase.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
15 February 2017
