VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications our practice was asked to re-examine the **RUBICK ex WITHOUT EXCEPTION Chestnut Yearling Filly**, brands Capital L+R inside a Love Heart nr sh., 10 over 6 off sh., to assess its continued suitability for public syndication. The purpose of the re-examination request was for the promoter to meet ongoing compliance with regulatory requirements and supply a current veterinary certificate for inclusion with their PDS to Racing NSW as Lead Regulator

I had previously inspected this horse on behalf of Dynamic Syndications at the Inglis Classic Yearling Sale on the 11th February 2018 where a detailed inspection including a full set of x-rays were read and post sale endoscopic evaluation and blood testing was performed and I advised our client the filly was in our opinion suitable for purchase.

Clinical Examination:

The re-examination performed was a general health check which included temperature, pulse, respiration, thoracic auscultation as well as an ophthalmological examination for eye sight, mucous membrane, colour and musculature symmetry and basic conformation, where no abnormalities were found.

There was no lameness at the walk and trot in hand. No response to hoof testers was found. On palpation and manipulation of the distal limbs including major joints, no abnormalities were found. The filly had a quiet temperament

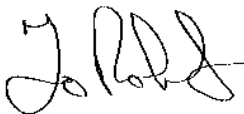

The filly remains a quality individual, athletic and free moving. She is well conformed and well balanced. The filly is still immature and will develop further. All clinical parameters were found to be within normal limits.

No radiographs, blood tests, drug sampling, ECG or upper respiratory endoscope were performed.

Conclusion:

In our opinion on the **17th May 2018** at the time of this re-examination, the **RUBICK ex WITHOUT EXCEPTION Chestnut Yearling Filly** is in so far as can be determined from the examination conducted, presents in good health and has passed the clinical examination and therefore remains suitable for all risk mortality insurance cover and is suitable for racing and public syndication.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
17 May 2018

NB: This examination is valid for seven (7) days and is only for the use of the person requesting the examination. The issuer of this certificate has no financial interest in the above horse and no contract with any other third party. The issuer has a long standing relationship with Dynamic Syndications to provide a detailed veterinary assessment and specific advice on suitability of prospective yearling purchases at all yearling sales within Australasia.

VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, a pre-sale veterinary examination of **Lot 224, RUBICK ex WITHOUT EXCEPTION, 2016 chestnut yearling filly**, brands as described in the 2018 William Inglis Classic Yearling Sale Catalogue, was carried out at the Inglis Riverside Stables Sales Complex, Warwick Farm, NSW, on the 9th January 2018, prior to the commencement of the Inglis Classic sale.

Clinical Examination:

She was an athletic individual, with good length of rein, good bone and depth of girth. She is a quality yearling with plenty of scope. The filly is still immature and will develop further. All clinical parameters were found to be within normal limits. She was examined in hand, and was found to be free moving. Stethoscope examination of heartbeat was normal. A Videoscope recording showed G1 rating being there is no evidence of any issue. There was no clinical evidence of wear or injury to her extremities.

Radiographic Examination:

Pre-sale there was a full set of radiographs available for inspection in the repository at the Inglis Complex. Upon examination, there were no radiographic findings of any significance noted.

Endoscopic Examination:

Post sale the upper respiratory tract was examined endoscopically and the larynx and pharynx were found to be normal in appearance and function in line with the videoscope presented pre-sale.

Conclusion:

In my opinion, at the time of this examination, **Lot 224, RUBICK ex WITHOUT EXCEPTION, 2016 chestnut yearling filly**, is in so far as can be determined from the extensive examination conducted, suitable for racing and public syndication and as such, is therefore suitable for all risk mortality insurance cover. I confirm that I advised Dynamic Syndications that in my opinion this lot was suitable for purchase.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
