VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications our practice was asked to re-examine the **LONHRO ex MONALIESHA Black / Brown Yearling Filly**, brands: Capital Letters STA nr sh., 21 over 7 off sh., to assess its continued suitability for public syndication. The purpose of the re-examination request was for the promoter to meet ongoing compliance with regulatory requirements and supply a current veterinary certificate for inclusion with their PDS to Racing NSW.

I had previously inspected this horse on behalf of Dynamic Syndications at the Inglis Melbourne Premier Yearling Sales on the 1st March 2019 where a detailed inspection was conducted including a full set of x-rays being read and they were considered low risk, a pre-sale videoscope was reviewed and I advised my client in my opinion the filly was suitable for purchase. Post sale an endoscopic evaluation was conducted and was unremarkable (low risk) and a post-sale blood test did not reveal any abnormalities.

Clinical Examination:

The re-examination performed was a general health check which included temperature, pulse, respiration, thoracic auscultation as well as an ophthalmological examination for eye sight, mucous membrane, colour and musculature symmetry and basic conformation, where no abnormalities were found.

There was no lameness at the walk and trot in hand. No response to hoof testers was found. On palpation and manipulation of the distal limbs including major joints, no abnormalities were found. The filly had a quiet temperament

The filly remains a high quality individual, athletic and free moving. She is well conformed and well balanced. The filly is still immature and will develop further. All clinical parameters were found to be within normal limits.

No radiographs, blood tests, drug sampling, ECG or upper respiratory endoscope were performed.

Conclusion:

In my opinion on the **20th JUNE 2019** at the time of this re-examination, the **LONHRO ex MONALEISHA Black / Brown Yearling Filly** is in so far as can be determined from the examination conducted at Oakridge Spelling Farm, The Oaks, NSW, presents in good health and has passed the clinical examination and therefore remains suitable for all risk mortality insurance cover and is suitable for racing and public syndication.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
20 June 2019

NB: This examination is valid for seven (7) days and is only for the use of the person requesting the examination. The issuer of this certificate has no financial interest in the above horse and no contract with any other third party. The issuer has a long standing relationship with Dynamic Syndications to provide a detailed veterinary assessment and specific advice on suitability of prospective yearling purchases at all yearling sales within Australasia.

VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, a pre-sale veterinary examination of **Lot 328, LONHRO ex MONALEISHA, 2017 black/brown yearling filly**, brands as described in the 2019 William Inglis Melbourne Premier Yearling Sale Catalogue, was carried out at the Inglis Sales Complex, Oaklands Junction, VIC, on the 1st March 2019, prior to the commencement of the Inglis Premier sale.

Clinical Examination:

She was a strong, athletic, well grown individual, with a deep girth and a good constitution. She is a high-quality yearling presented in excellent condition. She stands over good ground. The filly is still immature and will develop further. All clinical parameters were found to be within normal limits. She was examined in hand and was found to be free moving. Stethoscope examination was normal. There was no clinical evidence of wear or injury to her extremities.

Radiographic Examination:

Pre-sale there was a full set of radiographs available for inspection in the repository at the Inglis Complex. Upon examination, they were **low risk** as there no radiographic findings of any significance noted.

Endoscopic Examination:

Pre-Sale Videoscope showed a **Grade 1** Scope. Post sale the upper respiratory tract was examined endoscopically and the larynx and pharynx remained normal in appearance and function.

Conclusion:

In my opinion, at the time of this examination, **Lot 328, LONHRO ex MONALIESHA 2017 black/brown yearling filly**, is in so far as can be determined from the extensive examination conducted, suitable for racing and public syndication and as such, is therefore suitable for all risk mortality insurance cover. I confirm that I advised Dynamic Syndications that in my opinion this lot was suitable for purchase.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
