VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, pre-sale veterinary examinations were conducted on 145 of the 888 catalogued lots with 107 lots proceeding to have their X-Rays evaluated. One of these was **Lot 142, TAPIT (USA) ex SMOKEY'S LOVE, 2017 grey yearling colt**, brands as described in the 2019 Magic Millions Yearling Sales Catalogue. This was carried out at the Magic Millions Sale Complex, Bundall QLD, on the 8th January 2019, prior to the commencement of the Magic Millions sale.

Clinical Examination:

He was a well conformed, athletic, individual with good bone, depth of girth and good length of rein. He is a quality yearling standing over good ground. The colt is still immature and will develop further. All clinical parameters were found to be within normal limits. He was examined in hand, and was found to be free moving. Stethoscope examination of heartbeat was normal. There was no clinical evidence of wear or injury to his extremities.

Radiographic Examination:

Pre-sale there was a full set of radiographs available for inspection in the repository at the Magic Millions Complex. Upon examination, they were considered **low risk** and there were no radiographic findings of any significance noted.

Endoscopic Examination:

Post sale the upper respiratory tract was examined endoscopically and the larynx and pharynx were found to be normal in appearance and function.

Conclusion:

In my opinion, at the time of this examination, **Lot 142, TAPIT (USA) ex SMOKEY'S LOVE (USA), 2017 grey yearling colt**, is in so far as can be determined from the extensive examination conducted, suitable for racing and public syndication and as such, is therefore suitable for all risk mortality insurance cover. I confirm that I advised Dynamic Syndications that in my opinion this lot was suitable for purchase.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
15 January 2019
