VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications our practice was asked to re-examine the **PIERRO ex LARROCHA Bay / Brown Yearling Colt**, brands: Capital C nr sh., 30 over 7 off sh., to assess its continued suitability for public syndication. The purpose of the re-examination request was for the promoter to meet ongoing compliance with regulatory requirements and supply a current veterinary certificate for inclusion with their PDS to Racing NSW.

I had previously inspected this horse on behalf of Dynamic Syndications at the Magic Millions Yearling Sale on the 8th January 2019 where a detailed inspection was conducted including a full set of x-rays being read and they were considered unremarkable (low risk), a pre-sale videoscope was reviewed and I advised my client in my opinion the colt was suitable for purchase. Post sale an endoscopic evaluation was conducted and was unremarkable (low risk) and a post-sale blood test did not reveal any abnormalities.

Clinical Examination:

The re-examination performed was a general health check which included temperature, pulse, respiration, thoracic auscultation as well as an ophthalmological examination for eye sight, mucous membrane, colour and musculature symmetry and basic conformation, where no abnormalities were found.

There was no lameness at the walk and trot in hand. No response to hoof testers was found. On palpation and manipulation of the distal limbs including major joints, no abnormalities were found. The colt had a quiet temperament

The colt remains a high quality individual, athletic and free moving. He is well conformed and well balanced. The colt is still immature and will develop further. All clinical parameters were found to be within normal limits.

No radiographs, blood tests, drug sampling, ECG or upper respiratory endoscope were performed.

Conclusion:

In my opinion on the **1st May 2019** at the time of this re-examination, the **PIERRO ex LARROCHA Bay / Brown Yearling Colt** is in so far as can be determined from the examination conducted at Oakridge Spelling Farm, The Oaks, NSW, presents in good health and has passed the clinical examination and therefore remains suitable for all risk mortality insurance cover and is suitable for racing and public syndication.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
1 May 2019

NB: This examination is valid for seven (7) days and is only for the use of the person requesting the examination. The issuer of this certificate has no financial interest in the above horse and no contract with any other third party. The issuer has a long standing relationship with Dynamic Syndications to provide a detailed veterinary assessment and specific advice on suitability of prospective yearling purchases at all yearling sales within Australasia.

VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, pre-sale veterinary examinations were conducted on 145 of the 888 catalogued lots with 107 lots proceeding to have their X-Rays evaluated. One of these was **Lot 736, PIERRO ex LARROCHA, 2017 bay / brown yearling colt**, brands as described in the 2019 Magic Millions Yearling Sales Catalogue. This was carried out at the Magic Millions Sale Complex, Bundall QLD, on the 8th January 2019, prior to the commencement of the Magic Millions sale.

Clinical Examination:

A well conformed individual presented in excellent condition. He is athletic with a deep girth and good length of rein. He stands over good ground. The colt is still immature and will develop further however he is a horse that will be suited to 3yo and older racing over middle distance, rather than an early two-year-old programme. All clinical parameters were found to be within normal limits. He was examined in hand, and was found to be free moving. Stethoscope examination of heartbeat was normal. There was no clinical evidence of wear or injury to his extremities.

Radiographic Examination:

Pre-sale there was a full set of radiographs available for inspection in the repository at the Magic Millions Complex. Upon examination, they were considered **low risk** and there were no radiographic findings of any significance noted.

Endoscopic Examination:

Post sale the upper respiratory tract was examined endoscopically and the larynx and pharynx were found to be normal in appearance and function.

Conclusion:

In my opinion, at the time of this examination, **Lot 736, PIERRO ex LARROCHA, 2017 bay yearling colt**, is in so far as can be determined from the examination conducted, suitable for racing and public syndication and as such, is therefore suitable for all risk mortality insurance cover. I confirm that I advised Dynamic Syndications that in my opinion this lot was suitable for purchase.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
