VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications our practice was asked to re-examine the **VANCOUVER ex DANGLISSA GIRL Bay 2YO Colt**, brands: AQUIS Brand nr sh., 148 over 7 off sh., to assess its continued suitability for public syndication. The purpose of the re-examination request was for the promoter to meet ongoing compliance with regulatory requirements and supply a current veterinary certificate for inclusion with their PDS to Racing NSW.

I had previously inspected this horse on behalf of Dynamic Syndications at the William Inglis Classic Yearling Sales, Riverside Stables, Warwick Farm on the 8th February 2019, where a detailed inspection was conducted including a full set of x-rays being read and they were considered low risk, a pre-sale videoscope was reviewed and I advised my client in my opinion the colt was suitable for purchase. Post sale an endoscopic evaluation was conducted and was unremarkable (low risk) and a post-sale blood test did not reveal any abnormalities.

Clinical Examination:

The re-examination performed was a general health check which included temperature, pulse, respiration, thoracic auscultation as well as an ophthalmological examination for eye sight, mucous membrane colour, musculature symmetry and basic conformation, where no abnormalities were found.

There was no lameness at the walk and trot in hand. No response to hoof testers was found. On palpation and manipulation of the distal limbs including major joints, no abnormalities were found. The colt has a quiet temperament.

The colt remains a high quality individual, athletic and free moving. He is well conformed and well balanced. The colt is still immature and will develop further. All clinical parameters were within normal limits.

No radiographs, blood tests, drug sampling, ECG or upper respiratory endoscope were performed.

Conclusion:

In my opinion on the **9th AUGUST 2019** at the time of this re-examination, the **VANCOUVER ex DANGLISSA GIRL Bay 2YO Colt** is in so far as can be determined from the examination conducted at Wild Oaks Pre-Training Facility, The Oaks, NSW, presents in good health and has passed the clinical examination and therefore remains suitable for all risk mortality insurance cover and is suitable for racing and public syndication.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
9 August 2019

NB: This examination is valid for seven (7) days and is only for the use of the person requesting the examination. The issuer of this certificate has no financial interest in the above horse and no contract with any other third party. The issuer has a long standing relationship with Dynamic Syndications to provide a detailed veterinary assessment and specific advice on suitability of prospective yearling purchases at all yearling sales within Australasia.

VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, a pre-sale veterinary examination of **Lot 239, VANCOUVER ex DANGLISSA GIRL, 2017 bay yearling colt**, brands as described in the 2019 William Inglis Classic Yearling Sale Catalogue, was carried out at the Inglis Riverside Stables Sales Complex, Warwick Farm, NSW, on the 8th February 2019, prior to the commencement of the Inglis Classic sale.

Clinical Examination:

He was a well balanced, well conformed, athletic individual, with good length of rein, good bone and depth of girth and a good action. He is a quality yearling presented in good condition. The colt is still immature and will develop further. All clinical parameters were found to be within normal limits. He was examined in hand, and was found to be free moving. Stethoscope examination was normal. A Videoscope recording showed G1 rating being no evidence of any issue. There was no clinical evidence of wear or injury to his extremities.

Radiographic Examination:

Pre-sale there was a full set of radiographs available for inspection in the repository at the Inglis Complex. Upon examination, they were **low risk** as there were no radiographic findings of any significance noted.

Endoscopic Examination:

Post sale the upper respiratory tract was examined endoscopically and the larynx and pharynx were found to be normal in appearance and function in line with the videoscope presented pre-sale.

Conclusion:

In my opinion, at the time of this examination, **Lot 239, VANCOUVER ex DANGLISSA GIRL, 2017 bay yearling colt**, is in so far as can be determined from the extensive examination conducted, suitable for racing and public syndication and as such, is therefore suitable for all risk mortality insurance cover. I confirm that I advised Dynamic Syndications that in my opinion this lot was suitable for purchase.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
