VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications our practice was asked to re-examine the **SHALAA (IRE) ex TALENTED MISS Bay Yearling Filly**, brands: Capital Letters reversed R beside P nr sh., 22 over 8 off sh., to assess its continued suitability for public syndication. The purpose of the re-examination request was for the promoter to meet ongoing compliance with regulatory requirements and supply a current veterinary certificate for inclusion with their PDS to Racing NSW.

I had previously inspected this horse on behalf of Dynamic Syndications at the Magic Millions Yearling Sales on the 6th January 2020 where a detailed inspection was conducted including a full set of x-rays being read and they were considered low risk, a pre-sale videoscope was reviewed and I advised my client in my opinion the filly was suitable for purchase. Post sale an endoscopic evaluation was conducted and was unremarkable (low risk) and a post-sale blood test did not reveal any abnormalities.

Clinical Examination:

The re-examination performed was a general health check which included temperature, pulse, respiration, thoracic auscultation as well as an ophthalmological examination for eyesight, mucous membrane, colour and musculature symmetry and basic conformation, where no abnormalities were found.

There was no lameness at the walk and trot in hand. No response to hoof testers was found. On palpation and manipulation of the distal limbs including major joints, no abnormalities were found. The filly had a quiet temperament.

The filly remains a high quality individual, athletic and free moving. She is well conformed and well balanced. The filly is still immature and will develop further. All clinical parameters were found to be within normal limits.

No radiographs, blood tests, drug sampling, ECG or upper respiratory endoscope were performed.

Conclusion:

In my opinion on the **6th JULY 2020** at the time of this re-examination, the **SHALAA (IRE) ex TALENTED MISS Bay Yearling Filly** is in so far as can be determined from the examination conducted at Bimbadeen Park Spelling Farm, Werombi, NSW presents in good health and has passed the clinical examination and therefore remains suitable for all risk mortality insurance cover and is suitable for racing and public syndication.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
6 July 2020

NB: This examination is valid for seven (7) days and is only for the use of the person requesting the examination. The issuer of this certificate has no financial interest in the above horse and no contract with any other third party. The issuer has a long standing relationship with Dynamic Syndications to provide a detailed veterinary assessment and specific advice on suitability of prospective yearling purchases at all yearling sales within Australasia.
