## VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, a pre-sale veterinary examination was conducted on **Lot 118, SO YOU THINK ex NOWHERETOSOMEWHERE Bay yearling colt**, brands **Bird Silhouette** nr shoulder, **1** over **0** off shoulder, as described in the William Inglis Classic Yearling Sale Catalogue, was carried out at the Inglis Riverside Stables Sales Complex, Warwick Farm, NSW, on the 4th February 2022, prior to the commencement of the 2022 Inglis Classic sale.

### Clinical Examination:

In the opinion of my attending partner Dr Gary Baitz, who undertook the physical inspection, the colt is a quality individual. Well conformed, neat, short-coupled and athletic individual presented in excellent condition. He has a deep girth and good length of rein. He stands over good ground. The colt is still immature and will develop further. All clinical parameters were found to be within normal limits. There was no clinical evidence of wear or injury to extremities. This general health check included: temperature, pulse, respiration, thoracic auscultation, as well as an ophthalmological examination for eyesight, mucous membrane colour, musculature symmetry and basic conformation, where no abnormalities were found.

He was examined in hand and was found to be free moving. There was no lameness at the walk and trot. On palpation and manipulation of the distal limbs including major joints, no abnormalities were found. The colt has a quiet temperament.

### Radiographic Examination:

Pre-sale there was a full set of radiographs available for inspection in the repository at the William Inglis Complex. Upon my examination, I considered they were considered **low risk** and there were no radiographic findings of any significance noted.

### Endoscopic Examination:

Pre-sale I reviewed the upper respiratory tract videoscope evaluation, and the larynx and pharynx were found to be **Grade 1** - normal in appearance and function. Post-sale a physical endoscopic evaluation was performed which confirmed the videoscope evaluation findings that the horse passed as **Grade 1**.

### Conclusion:

In our opinion, at the time of these examinations, **Lot 118, SO YOU THINK ex NOWHERETOSOMEWHERE Bay yearling colt**, is in so far as can be determined from the examination conducted, suitable for racing and public syndication and as such, is therefore suitable for all risk mortality insurance cover. I confirm that I advised Dynamic Syndications that in my opinion this lot was suitable for purchase.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS  
7 February 2022

NB: This examination is valid for seven (7) days and is only for the use of the person requesting the examination. The issuer of this certificate has no financial interest in the above horse and no contract with any other third party. The issuer has a long-standing relationship with Dynamic Syndications to provide a detailed veterinary assessment and specific advice on suitability of prospective yearling purchases at all yearling sales within Australasia.
