## VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, I was asked to re-examine the **ASTERN ex BETTER LIFE, 2020 Brown yearling colt**, brands described as a **4 Leaf Clover** nr sh., **6 over 0** off sh., to assess its continued suitability for public syndication. The purpose of the re-examination request was for the promoter to meet ongoing compliance with regulatory requirements by supplying a current veterinary certificate for inclusion with their PDS.

I had previously inspected this horse on behalf of my client Dynamic Syndications at the Inglis Great Southern Weanling Sale, Oaklands Junction, Vic on the 12th June 2021, prior to the commencement of the Sale where a detailed pre-purchase inspection was conducted including a full set of x-rays being read and were considered **low risk**, and an endoscopic evaluation conducted which was **Grade 1** (low risk). I advised my client at the time; in my opinion the colt was suitable for their purchase.

I also performed a re-examination on the 12th November 2021 at Gooree Park, Mudgee, NSW, where the colt was spelling, to meet my clients ongoing compliance regulatory requirements by supplying a current veterinary certificate for inclusion with their PDS.

**Clinical Examination:** This re-examination conducted on 19th April 2022, is for the promoter to meet and maintain its ongoing compliance and regulatory requirements. The colt is currently spelling at Bimbadeen Park, 50 Sylvan Rd, Werombi, NSW. It was a general health check which included temperature, pulse, respiration, thoracic auscultation, as well as an ophthalmological examination for eyesight, mucous membrane colour, musculature symmetry and basic conformation, where no abnormalities were found.

There was no lameness at the walk and trot in hand. No response to hoof testers was found. On palpation and manipulation of the distal limbs including major joints, no abnormalities were found. The colt had a quiet temperament.

The colt remains a high-quality individual, athletic and free moving. He is well conformed and well balanced. The colt is still immature and will develop further. All clinical parameters were found to be within normal limits. No radiographs, blood tests, drug sampling, ECG or upper respiratory endoscope were performed.

### Conclusion:

In my opinion as at the **19th APRIL 2022**, the date of re-examination, the **ASTERN ex BETTER LIFE, 2020 Brown yearling colt**, is in so far as can be determined from the examination conducted, presents in good health and has passed clinical examination and remains suitable for all risk mortality insurance cover and is suitable for racing and public syndication.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS  
19 April 2022

NB: This examination is valid for seven (7) days and is only for the use of the person requesting the examination. The issuer of this certificate has no financial interest in the above horse and no contract with any other third party. The issuer has a long-standing relationship with Dynamic Syndications to provide a detailed veterinary assessment and specific advice on suitability of prospective yearling purchases at all yearling sales within Australasia.

## VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications our practice was asked to re-examine the **ASTERN ex BETTER LIFE, 2020 Brown yearling colt**, brands described as a **4 Leaf Clover** nr sh., **6 over 0** off sh., to assess its continued suitability for public syndication. The purpose of the re-examination request was for the promoter to meet ongoing compliance with regulatory requirements by supplying a current veterinary certificate for inclusion with their PDS.

I had previously inspected this horse on behalf of Dynamic Syndications at the Inglis Great Southern Weanling Sale, Oaklands Junction, Vic on the 12<sup>th</sup> June 2021, where a detailed pre-purchase inspection was conducted including a full set of x-rays being read and were considered **low risk**, and an endoscopic evaluation conducted which was **Grade 1** (low risk). I advised my client at the time; in my opinion the colt was suitable for their purchase.

### Clinical Examination:

The re-examination was performed on the 12<sup>th</sup> November 2021 at Gooree Park, Mudgee, NSW, where the colt has been spelling since arriving from the weanling sale on 15 June 2021. This was a general health check which included: temperature, pulse, respiration, thoracic auscultation, as well as an ophthalmological examination for eyesight, mucous membrane colour, musculature symmetry and basic conformation, where no abnormalities were found.

There was no lameness at the walk and trot in hand. No response to hoof testers was found. On palpation and manipulation of the distal limbs including major joints, no abnormalities were found. The colt has a quiet temperament.

The colt remains a high-quality individual, athletic and well-balanced. He is well conformed and free moving. The colt is still immature and will develop further. All clinical parameters were found to be within normal limits. No radiographs, blood tests, drug sampling, ECG or upper respiratory endoscope were performed.

### Conclusion:

In my opinion as at the **12th NOVEMBER 2021**, the date of re-examination, the **ASTERN ex BETTER LIFE, 2020 Brown yearling colt**, is in so far as can be determined from the examination conducted presents in good health and has passed clinical examination and remains suitable for all risk mortality insurance cover and is suitable for racing and public syndication.

Yours faithfully,

**Dr. T.M.B. Roberts BVSc. MRCVS**

## VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, a pre-sale veterinary examination was conducted on **Lot 290, ASTERN ex BETTER LIFE, 2020 Brown Weanling Colt**, brands: a **4 Leaf Clover** nr shoulder, **6 over 0** off shoulder, as described in the 2021 Inglis Great Southern Sale Catalogue. This was carried out at the Inglis Sales Complex, Oaklands Junction, Vic, on the 12<sup>th</sup> June 2021, prior to the commencement of the Weanling Section of the Sale.

### Clinical Examination:

Presented in excellent condition, he is a high-quality individual. Athletic, well conformed, a deep girth, good scope and moves well. The colt is still immature and will develop significantly further. All clinical parameters were found to be within normal limits. He was examined in hand and was found to be free moving. Stethoscope examination of heartbeat was normal. There was no clinical evidence of wear or injury to extremities.

### Radiographic Examination:

Pre-sale there was a full set of radiographs available for inspection in the repository at the Inglis Complex. Upon examination, they were considered **low risk** as there were no radiographic findings of any significance noted.

### Endoscopic Examination:

Post-sale, for the purchaser, I conducted an upper respiratory tract examination endoscopically. He was passed with the larynx and pharynx found to be rated **Grade 1** (normal in appearance and function).

### Conclusion:

In my opinion, at the time of this examination, **Lot 290, ASTERN ex BETTER LIFE, 2020 Brown Weanling Colt**, is in so far as can be determined from the examination conducted, suitable for racing and public syndication and as such, is therefore suitable for all risk mortality insurance cover.

I confirm that I advised Dynamic Syndications that in my opinion this lot was suitable for purchase.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
