2026 NATIONAL YEARLING SALES SERIES BLOOD TESTS

At your request the following horse/s had blood samples analysed for the presence of drugs and the results are as follows:

Lot	Breeding	Test	Status
135	00Smashing(NZ)240	Sale Anabolic Steroid Testing	Non detected
135	00Smashing(NZ)240	Sale Bisphosphonate Testing	Non detected

Please Note:

Samples tested for the presence of a range of exogenous anabolic androgenic steroids were analysed by liquid chromatography/mass spectrometry in accordance with the accredited laboratory method MM-70.

Samples tested for the presence of a range of bisphosphonate drugs were analysed by liquid chromatography/mass spectrometry in accordance with laboratory method MM-72 under the laboratory's 2.70 accreditation The results of analysis apply to the samples as received.

Yours sincerely,

James Jennings
Director of Operations
