VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, a pre-sale veterinary examination of **Lot 173, ENCOSTA DE LAGO ex BROWN EYED GIRL bay / brown yearling colt**, brands as described in the 2011 William Inglis Easter Yearling Sale Catalogue, was carried out at the Inglis Newmarket Complex, Randwick, NSW, on the 4th April 2011, prior to the commencement of the William Inglis Easter Yearling Sale.

Clinical Examination:

An athletic, free moving colt of high quality which was presented in excellent condition. He was well conformed and well balanced with excellent rein. He is a well grown and strong colt. This was a quality yearling that stands over good ground with an easy flowing action at the walk. Both testicles were presented. The colt is still immature and will develop further. All clinical parameters were found to be within normal limits. He was examined in hand, and was found to be free moving. Stethoscope examination of heartbeat was normal. There was no clinical evidence of wear or injury to his extremities. There was no response to flexion tests.

Radiographic Examination:

Pre-sale there was a full set of radiographs available for inspection in the repository at the Inglis Sales Complex. Upon examination, there were no radiographic findings of any significance noted.

Endoscopic Examination:

Post sale the upper respiratory tract was examined endoscopically and the larynx and pharynx were found to be normal in appearance and function.

Conclusion:

In my opinion, at the time of this examination, **Lot 173 ENCOSTA DE LAGO ex BROWN EYED GIRL 2009 bay / brown yearling colt** is in so far as can be determined from the extensive examination conducted; suitable for racing and public syndication and as such, is therefore suitable for all risk mortality insurance cover. I confirm that I advised Dynamic Syndications that in my opinion this lot was suitable for their purchase.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
8 April 2011

NB: This examination is valid for seven (7) days and is only for the use of the person requesting the examination. The issuer of this certificate has no financial interest in the above horse and no contract with any other third party. The issuer has a long standing relationship with Dynamic Syndications to provide a detailed veterinary assessment and specific advice on suitability of prospective yearling purchases at all yearling sales within Australasia.

VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications I re-examined the **ENCOSTA DE LAGO ex BROWN EYED GIRL bay / brown yearling colt**, brands G over H beside vertical bar nr sh. 180 over 9 off sh., to assess its continued suitability for public syndication. The purpose of the re-examination request was for the promoter to comply with regulatory requirements to supply a current veterinary certificate for inclusion with their PDS to Racing NSW.

I had previously inspected this horse on behalf of Dynamic Syndications at the William Inglis Easter Yearling Sale on the 4th April 2011 where a detailed inspection including x-rays and post sale endoscope was performed and I advised the client the horse was in my opinion suitable for purchase.

Clinical Examination:

The re-examination performed was a general health check which included temperature, pulse, respiration, cardiac, thoracic auscultation as well as eyes for sight, mucous membrane, colour and musculature symmetry and basic conformation where no abnormalities were found.

There was no lameness at the walk and trot and no response to hoof testers was found. On palpation and manipulation of the legs and major joints no abnormalities were found.

No radiographs, blood tests, drug sampling, ECG or upper respiratory endoscope were performed.

In my opinion the colt remains an athletic, free moving individual. He is well conformed and well balanced. For his foal date he is a well grown and strong colt. The colt is still immature and will develop further. All clinical parameters were found to be within normal limits.

Conclusion:

In my opinion, on the 29th June 2011 at the time of this re-examination, the **ENCOSTA DE LAGO ex BROWN EYED GIRL 2009 bay / brown yearling colt** is in so far as can be determined from the examination conducted, remains suitable for all risk mortality insurance cover, suitable for racing and public syndication.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
