VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, a pre-sale veterinary examination of **Lot 212, MAGNUS ex RATHER GRAND 2009 bay yearling colt**, brands as described in the 2011 William Inglis Melbourne Premier Yearling Sale Catalogue, was carried out at the Inglis Oaklands Junction Sales Complex, Oaklands, VIC, on the 1 March 2011, prior to the commencement of the Premier Yearling Sale.

Clinical Examination:

Presented in good condition, he was a well grown and athletic individual. He is well conformed and is well balanced. He has excellent rein. He is a quality yearling, standing over a lot of ground with a purposeful stride and an easy flowing action at the walk. The colt is still immature and will develop further. Both testicles were descended. All clinical parameters were found to be within normal limits. He was examined in hand, and was found to be free moving. Stethoscope examination of heartbeat was normal. There was no clinical evidence of wear or injury to his extremities. There was no response to flexion tests.

Radiographic Examination:

Pre-sale there was a full set of radiographs available for inspection in the repository at the William Inglis Complex. Upon examination, there were no radiographic findings of any significance noted.

Endoscopic Examination:

Post sale the upper respiratory tract was examined endoscopically and the larynx and pharynx were found to be normal in appearance and function.

Conclusion:

In my opinion, at the time of this examination, **Lot 212 MAGNUS ex RATHER GRAND 2009 bay yearling colt** is in so far as can be determined from the extensive examination conducted, suitable for racing and public syndication and as such, is therefore suitable for all risk mortality insurance cover. I confirm that I advised Dynamic Syndications that in my opinion this lot was suitable for purchase.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
3 March 2011
