VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications, a pre-sale veterinary examination of **Lot 468, SEBRING ex LADY DIVA Bay yearling colt**, brands as described in the 2013 Inglis Melbourne Premier Yearling Sale Catalogue, was carried out at the Inglis Sales Complex Oaklands Junction VIC, on the 1st March 2013, prior to the commencement of the Yearling Sale.

Clinical Examination:

This was a high quality individual presented in excellent condition. He was strong and athletic, has good bone and musculature. He was well conformed with good angulations to shoulder and pasterns. He was well balanced with a good length of rein. He had an easy flowing action at the walk with an excellent length of stride. The colt is still immature and will develop further. All clinical parameters were found to be within normal limits. He was examined in hand, and was found to be free moving. When fully mature, he is expected to reach an above average height of approximately 16.1 hh. There was no response to flexion tests. Stethoscope examination of heartbeat was normal. There was no clinical evidence of wear or injury to his extremities.

Radiographic Examination:

Pre-sale there was a full set of radiographs available for inspection in the repository at the Inglis Sales Complex. Upon examination, I advised the client that in my opinion they were low risk as there were no radiographic findings of any significance noted.

Endoscopic Examination:

Post sale the upper respiratory tract was examined endoscopically and the larynx and pharynx were found to be normal in appearance and function.

Conclusion:

In my opinion, at the time of this examination, **Lot 468, SEBRING ex LADY DIVA Bay yearling colt** is in so far as can be determined from the extensive examination conducted; suitable for racing and public syndication and as such, is therefore suitable for all risk mortality insurance cover. I confirm that I advised my client Dynamic Syndications that in my opinion this lot was suitable for their purchase.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
7 March 2013

NB: This examination is valid for seven (7) days and is only for the use of the person requesting the examination. The issuer of this certificate has no financial interest in the above horse and no contract with any other third party. The issuer has a long standing relationship with Dynamic Syndications to provide a detailed veterinary assessment and specific advice on suitability of prospective yearling purchases at all yearling sales within Australasia.

VETERINARY EXAMINATION FOR DYNAMIC SYNDICATIONS

At the request of Dynamic Syndications I re-examined the **SEBRING / LADY DIVA bay yearling colt**, brands Capital V under horizontal line, W and P nr sh. 1 over 1 off sh., at Oakridge Spelling Farm, The Oaks, NSW on 16 April 2013, to assess its continued suitability for public syndication. The purpose of the re-examination request was for the promoter to comply with regulatory requirements to supply a current veterinary certificate for inclusion with their PDS to Racing NSW.

I had previously inspected this horse on behalf of Dynamic Syndications at the William Inglis Melbourne Premier Yearling Sale on the 1st March 2013 where a detailed inspection including a full set of x-rays were read and post sale endoscope was performed and I advised the client the horse was in my opinion suitable for purchase.

Clinical Examination:

The re-examination performed was a general health check which included temperature, pulse, respiration, cardiac, thoracic auscultation as well as eyes for sight, mucous membrane, colour and musculature symmetry and basic conformation where no abnormalities were found.

There was no lameness at the walk and trot and no response to hoof testers was found. On palpation and manipulation of the legs and major joints no abnormalities were found.

No radiographs, blood tests, drug sampling, ECG or upper respiratory endoscope were performed.

In my opinion the colt remains a high quality individual, athletic and free moving. He is well conformed and well balanced. For his foal date he is a well grown and strong colt. The colt is still immature and will develop further. All clinical parameters were found to be within normal limits.

Conclusion:

In my opinion, on the 16th April 2013 at the time of this re-examination, the **SEBRING ex LADY DIVA 2011 bay yearling colt** is in so far as can be determined from the examination conducted, remains suitable for all risk mortality insurance cover, suitable for racing and public syndication.

Yours faithfully,

Dr. T.M.B. Roberts BVSc. MRCVS
